Note 1: The elements of the list that are marked with an asterisk (\*) are minimum items that should be addressed in a ramp inspection of an aircraft of an operator from another State. Time permitting, the remaining items should also be addressed to constitute a complete ramp inspection.

Note 2: Inspection of large aircraft will always be accomplished by as minimum the airworthiness and flight operations inspectors and coordination between the inspectors is required to avoid duplication.

Note 3: If a cabin safety inspector is not available during the ramp inspection, the Cabin Safety checklist for cabin items is to be accomplished by either the airworthiness inspector or the flight operations inspector as appropriate.
